Bug Priority:

Following is the general gradation to decide bug priority:

- High(P1): It covers anything which affects the flow or blocks app usage.
- Medium(P2): It adversely affects the user experience.
- Minor(P3): All other errors like (typos, missing icons, layout issues, etc.).

TESTING:

Different type of testing has been performed to catch bugs:

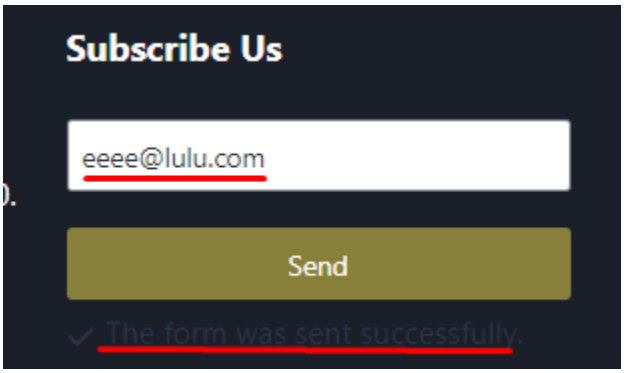
Functional	Stress	Regression	Performance
Cosmetic	Usability	Load	Black Box
System	Integration	Monkey	W3C Validation

BUG 1:

By functional, system, stress testing, it shows that it doesn't check the validity of email and just send the form.

SUGGESTION:

It should check the validity and display error message that **"Email is not valid"**



BUG 2:

All of these information are not clickable or not link to other pages

SUGGESTION:

Embed a map from a service like Google Maps. Or Make the Contact Information Clickable it will make easy for customers to directly contact to organization through links without any difficulty.

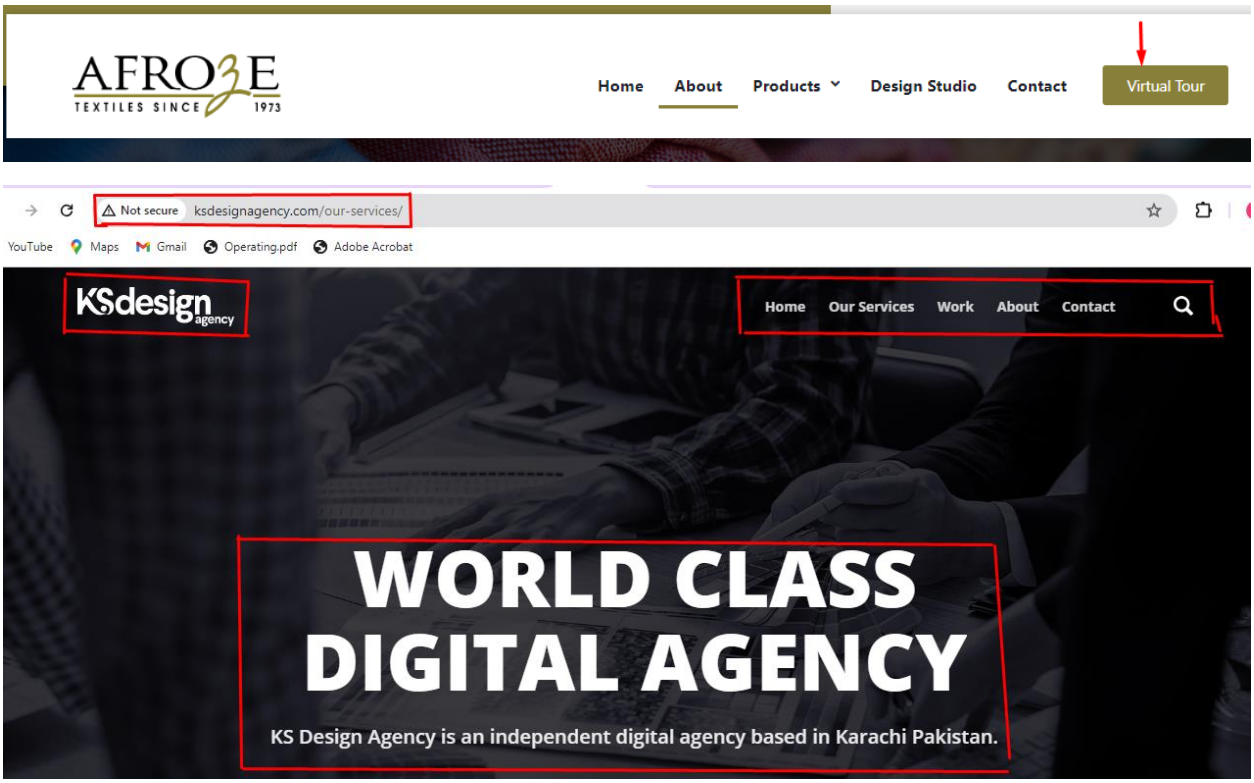
BUG 3:

There is no sense of adding a link of other organization in “Virtual Tour” tab whose service is totally different from what the Textile company provides.

And from KSdesign agency website we can’t returned back to Afroze Textile company without going to https://afrozetextiles.com/ link again

SUGGESTION:

In case of collaboration with other company you should make a separate url link for that company

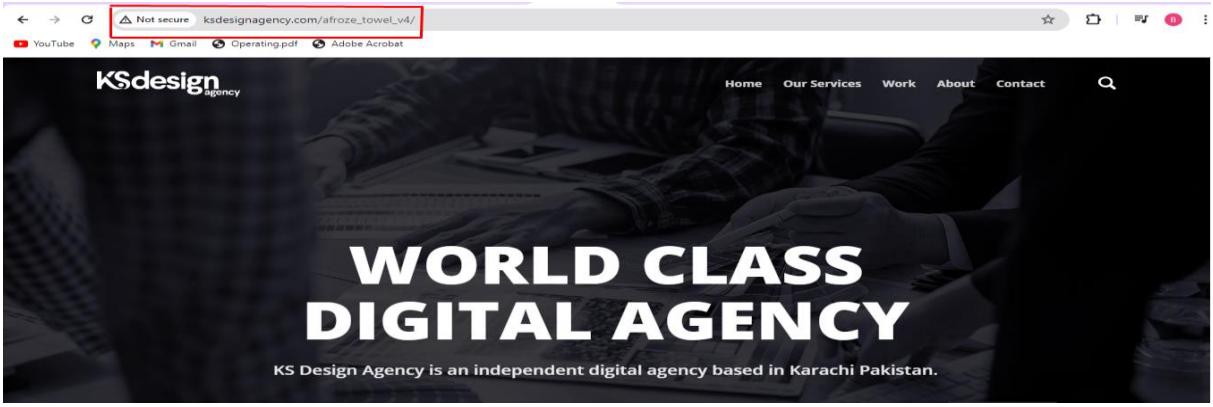


BUG 4:

Not secure website

SUGGESTION:

Make it secure

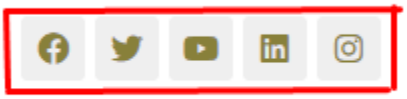


BUG 5:

Clicking on these icons doesn't link to social media pages

SUGGESTION:

Make a clickable option activate so that these Social media icons redirect us to new window pages.

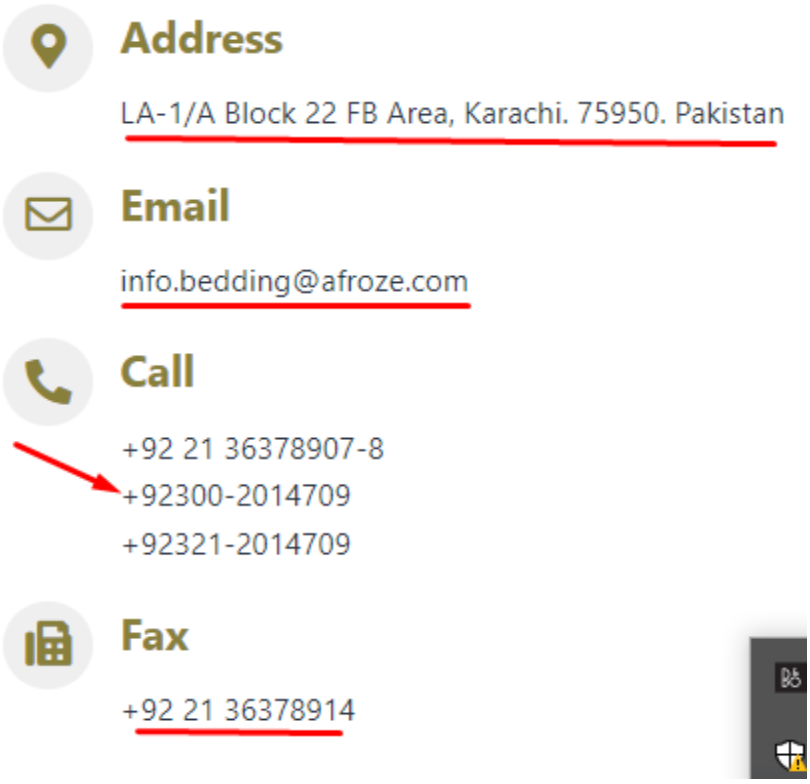


BUG 6:

Can't directly access from these information

SUGGESTION:

Make these an active links

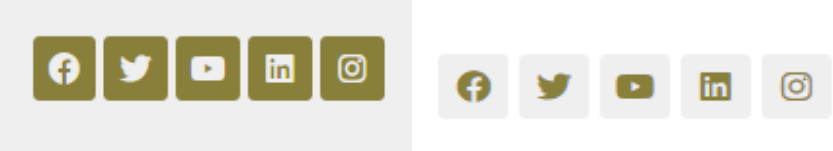


BUG 7:

Contact information of two different organization units consist of two different formats of social media icons

SUGGESTION:

Make it same to make them equally eye catching icons

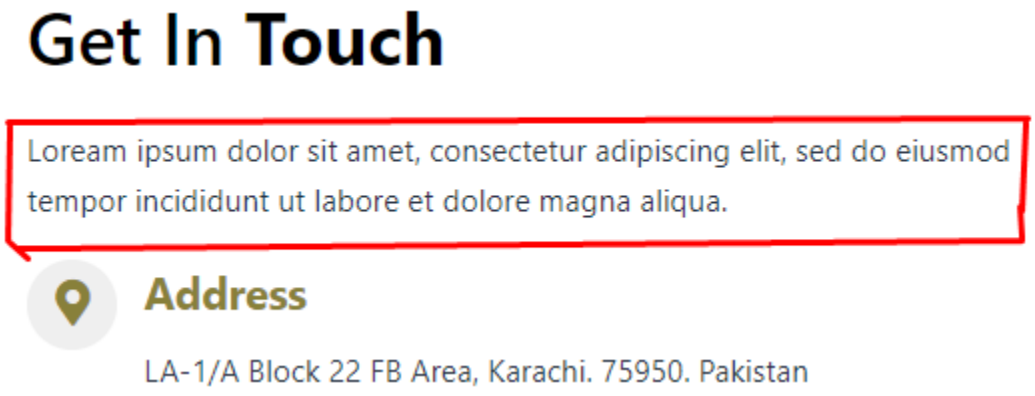


BUG 8:

Dummy Text has presented

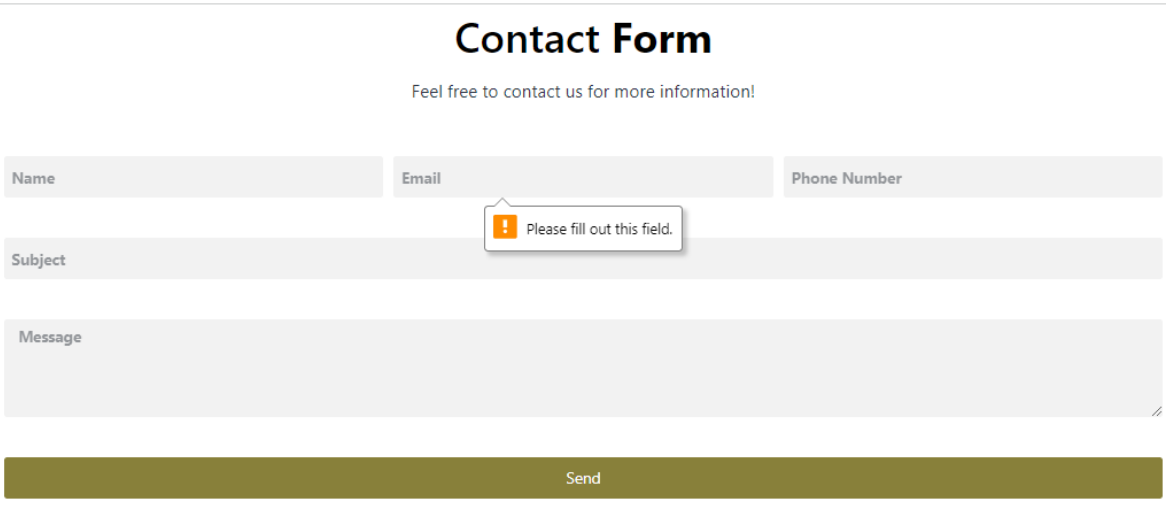
SUGGESTION:

Remove it from code



BUG 9:

Only give error on email field instead of giving errors on whole input fields



BUG 10:

NAME: No character limitation, not a valid username

EMAIL: Not valid email, No character limitation

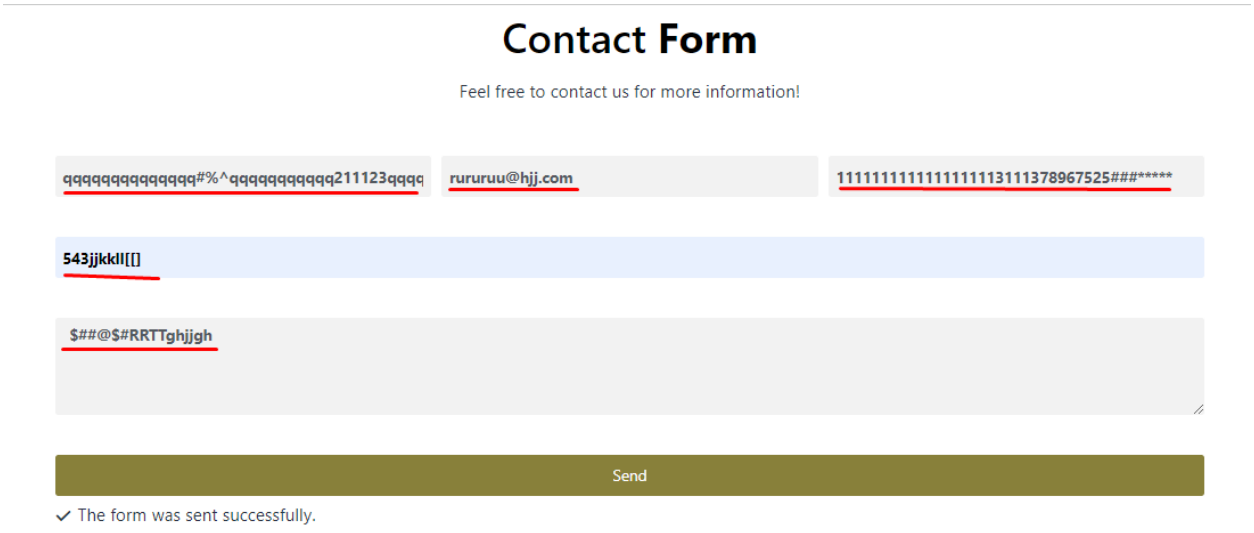
PHONE NO: No character limitation, not a valid pone number

SUBJECT: Not valid subject, No character limitation

MESSAGE: Not valid message, No character limitation

SUGGESTION:

Make constraints on input fields



BUG 11:

Overlapping of two words, it can be a priority 3 category

SUGGESTION:

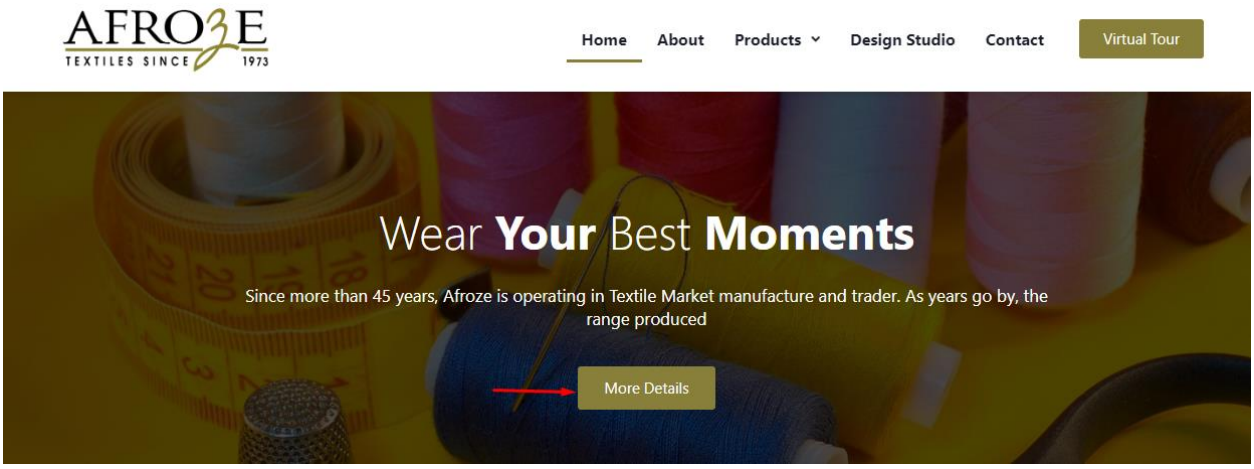
Typos mistake should be corrected.

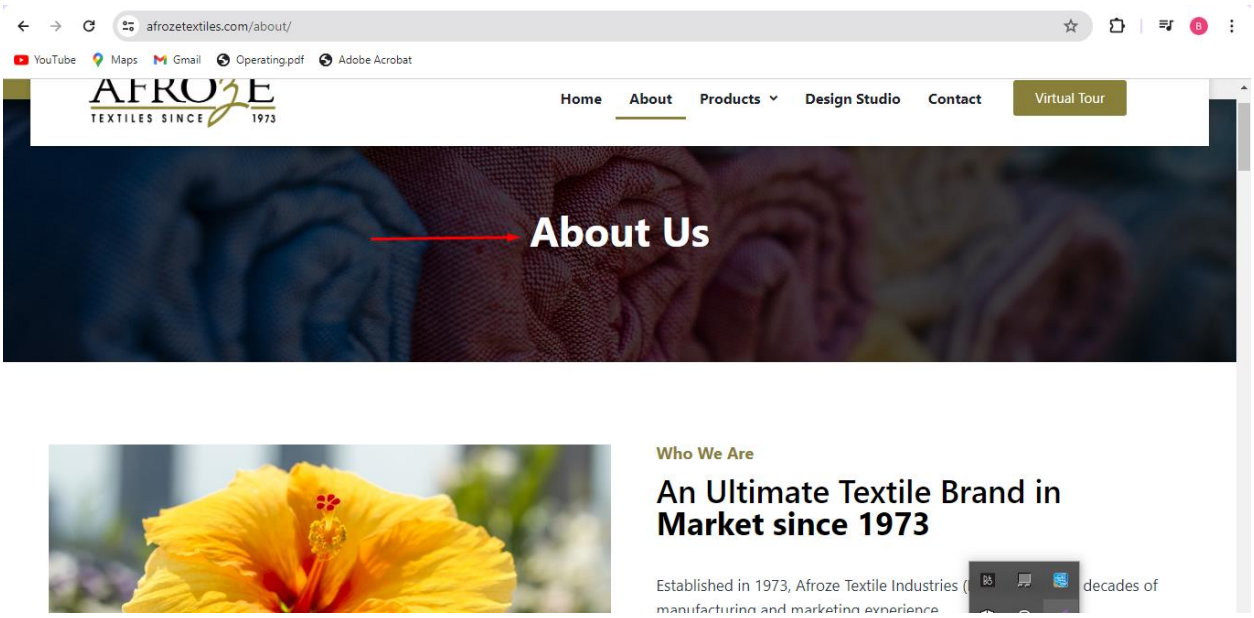
BUG 12:

On clicking About from navigation menu and More detail tab from slider it links to same page

SUGGESTION:

Clicking on **More detail** tab it Can give the more information about a particular slider





BUG 13:

Cosmetic Issue (Color theme)

It is not too attractive as it can be

SUGGESTION:

Make some hover effects ,colors of bullet points and headings so it will be more eye catching
